4. Which are various ways to minimize stress?

Ways to Minimize Stress:

- i. Joining a laughter club.
- ii. Communication with friends, peers, cousins, teachers and parents, noting down our feelings, expressing our feelings with near and dear ones help us to relieve stress.
- iii. Fostering hobbies like material collection, photography, reading, cooking, sculpturing, drawing, rangoli, dancing, etc. helps to divert energy and mind towards positive energy.
- iv. Learning and listening to music, singing helps to change the mindset and keep us happy.
- v. Regular exercising, massaging, visiting the spa also helps to relieve the stress.
- vi. Deep breathing, Yog asanas, Yogic sleep, meditation, balanced and good food also help to impart positivity and relieve stress.
- vii. Time management, planning of our own duties and decision power are also effective ways of stress management.

5. Give three examples of each.

a. Hobbies to reduce stress.

Photography, reading, cooking, drawing, dancing.

b. Diseases endangering the social health.

AIDS, T.B., leprosy and mental disorder.

c. Physical problems arising due to excessive use of mobile phones.

Tiredness, headache, insomnia, forgetfulness, tinnitus, joint pains and problems in vision.

d. Activities under the jurisdiction of cybercrime laws.

Hacking of information, video piracy, sending derogatory messages, cyber bullying, introducing computer viruses, sending vulgar pictures, exchange of information and phone number, etc. are activities under the jurisdiction of cybercrime laws.

6. What will you do? Why?

a. You are spending more time in internet/mobile games, phone, etc.

If I am spending more time on the internet, I would:

- i. Set limits: I would set limits on my internet use, such as allocating a specific amount of time for internet use each day or setting a timer to remind me to take breaks.
- ii. Prioritize other activities: I would prioritize other activities like exercise, socializing, or hobbies, to balance out my time and avoid excessive internet use.

b. Child of your neighbour is addicted to tobacco chewing.

If the child of my neighbor is addicted to tobacco chewing, I would:

- i. Talk to the parents: I would talk to the child's parents about the risks and negative impacts of tobacco use, especially for children. I would offer support and encourage them to help their child quit.
- ii. Provide resources: I would provide the parents with resources, such as counseling services or support groups, that can help their child overcome their addiction.

c. Your sister has become incommunicative. She prefers to remain alone.

If my sister has become incommunicative, I would:

- i. Reach out: I would reach out to my sister and try to initiate communication, showing that I care and am available to listen if she wants to talk.
- ii. Offer help: If my sister is going through a difficult time, I would offer any help or resources that I can, such as counseling or other support services, to help her through it.

d. You have to use free space around your home for good purpose.

- i. I will plant trees, flowering plants and make a beautiful garden. I will also arrange for space for outdoor games.
- ii. I will see to it that it is not littered.
- iii. It will be a place where I can invite my friends and play games.

e. Your friend has developed the hobby of snapping selfies.

- i. Person indulging in selfie is not aware about the world around and the risks.
- ii. I will advise my friend to stop this weird behaviour as practice of taking selfies has led to many deaths.
- iii. I will suggest him that the habit of taking selfies many times a day is disturbing your personal, social and professional life.
- iv. I will recommend him to develop some hobbies like reading books or playing sports to help him get rid of this habit.

e. Your brother studying in XII has developed the stress.

If my brother studying in XII has developed stress, I would:

- i. Talk to him: I would talk to my brother about his stress and encourage him to express his feelings. I would provide support and offer guidance on ways to manage stress, such as practicing mindfulness, physical exercise, or seeking counseling.
- ii. Encourage healthy habits: I would encourage my brother to adopt healthy habits like getting enough sleep, eating a balanced diet, and taking breaks during studying to avoid burnout.

7. What type of changes occurs in a home having chronically ill old person? How will you help to maintain good atmosphere?

- i. The quality of life for both family members and chronically ill older individuals can be significantly diminished due to physical, psychological, and social problems.
- ii. Family members often experience emotions such as worry, frustration, and stress.
- iii. The work lives of family members are affected.
- iv. The family must cope with behavioral disturbances in the patient.
- v. The family faces financial pressure due to medical expenses.
- vi. Regularly meeting with social workers, rehabilitation therapists, and physicians can assist family members in caring for the elderly individual.
- vii. Providing care, engaging in conversations with the older person, and offering counseling to family members can not only alleviate their suffering but also contribute to maintaining a positive atmosphere at home.

INTEXT QUESTIONS

1. Have you ever seen the persons inebriated with drugs or liquor loitering on dirty places? Whether such a pitiful condition of most intelligent human being is acceptable?

- i. Observing a person walking in public place while under the influence of drugs or alcohol is a distressing sight.
- ii. Both drugs and alcohol have a profound impact on a person's nervous system, primarily the brain, leading to a loss of control over their actions.
- iii. This not only affects the individual themselves but also inflicts harm and distress upon their family and others in their vicinity.
- iv. Consequently, such a state in a human, who is considered the most intelligent of all living beings, is certainly unacceptable.

2. You must have read the news about many deaths due to poisonous liquor. Why does it happen?

- i. Liquor is produced by fermentation of substances such as yeast.
- ii. If this fermentation process is incomplete or not performed correctly, poisonous liquor is produced.
- iii. Consumption of even small quantity of such poisonous liquor may prove fatal.

3. Two caricatures presenting the situations of the year 1998 and 2017 about playing on playground are given below. Observe those caricatures. Express your opinion about arising of such different situations

- i. In 1998, mobile phones, computers, and internet services were not as common as they are today. Consequently, children used to spend more time playing outdoors.
- ii. The first picture from 1998 depicts a mother trying to persuade her son to study at home instead of playing outdoors.
- iii. In contrast, the second picture from 2017 shows the increased influence of mobile and computer games. As a result, children spend a significant amount of time indoors, leading to reduced physical activity, which affects their social, mental, and physical health.
- iv. The excessive use of computers, the internet, and mobile devices in today's generation not only impacts children's physical health but also fosters selfishness among them.
- v. In the second picture, the mother is encouraging her son to engage in outdoor activities rather than staying at home and wasting time watching television or being on the internet.

4. Do you recall the sudden closing of any cartoon serial of foreign origin being telecast on television?

Yes, there was a time when the popular Japanese cartoon series "Shin Chan" was abruptly banned from television due to its negative impact on children. The show featured a mischievous child character who used adult language, which raised concerns about its potential influence on the upbringing of young kids.

5. Explain details on happenings about blue whale game.

- i. Blue Whale was an online game of alarming proportions.
- ii. It consisted of a series of online challenges that participants had to progressively complete to advance.
- iii. These challenges might have included tasks like carving a blue whale onto their skin and jumping off buildings.
- iv. There were at least three reported suicides in India involving young individuals who either played the game or had searched for it online.

6. Observe the images Is it rational? Why?

- i. In the first image, the boy is using cell phone while eating. It is wrong as it can affect proper digestion of food. Since the boy is focused on mobile, he will not be chewing the food well before swallowing. He might mistakenly eat something which he should not consume.
- ii. In the second image, there is a person taking selfie on road. It is wrong as it can lead to accidents and the person, may lose his life. For the sake of safety, selfies should not be taken on places like train/bus stop/ railway track, on a roller coaster, with wild animals, busy streets and highways, high cliffs and near water bodies.

7. Whether the incidence shown in the following picture is rational?

Express your opinion.

- i. The incident illustrates a situation in which a woman is behaving inappropriately towards an older individual who may be suffering from an incurable or chronic disease.
- ii. Mistreating or misbehaving with such a person only adds to their suffering.
- iii. Therefore, it is not at all rational to behave in this manner; instead, we should adopt an approach to assist and support such individuals.
- iv. Taking care and engaging in conversations with the elderly person can significantly alleviate their suffering.

8. Why is there increase in news of death by drowning in ocean, falling in deep valleys or under trains during catching the cell phone selfie?

- i. A person engrossed in taking a selfie is often unaware of the world around them and the associated risks.
- ii. Some individuals may go to great lengths to capture the perfect shot, especially young people who are eager to impress others, often without regard for potential dangers.
- iii. As a result, there has been an increase in reports of fatalities related to activities like drowning in the ocean, falling in deep valleys, or accidents involving trains while attempting to take cellphone selfies.

9. There is increasing competition to upload the videos of road accidents instead of helping the victims. What is the mentality of such people?

- i. Nowadays, there is a trend among friends to compete for the highest number of views, likes, and comments, often leading them to post videos of accidents.
- ii. Many people are so immersed in their virtual lives that they are neglecting their sense of humanity.
- iii. Consequently, individuals are becoming increasingly attached to virtual content, often showing little concern for what is happening in their immediate surroundings.

10. Why are the video-clips of parents threatening or hitting the children not studying as per their wish or domestic helpers beating the children are very common on social media nowadays?

- i. Videos of parents scolding or hitting children and domestic helpers mistreating kids are common on social media because it's simple to share content there.
- ii. Some people share these videos without realizing the harm they can cause or just for entertainment.
- iii. These videos can easily spread on social media, drawing attention and discussions.

11. Why do you wait for periods of music, P.T., drawing in the classroom?

- i. Learning music and drawing, listening to music, and singing keep us happy and help reduce stress.
- ii. Physical training improves discipline, interaction, and the tendency toward unity, reducing loneliness.
- iii. These periods help us take a break, alleviate stress and loneliness, and keep us fit, so we eagerly await these periods.

Previous Year Questions

1. Playing games on mobile while eating is right or wrong. Justify.

Intext Question
